Welcome Message

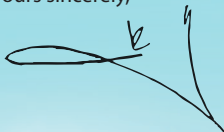

On behalf of the organizing committee, I would like to invite you to the 21st HKSPRA Annual Scientific Meeting which will be held on 20 – 21 October 2018 in the Cordis, Hong Kong.

The Society has made substantial development since its establishment in 1997, the annual meeting has become an important event for members of the Society. It will provide a strong scientific programme, enjoyable social activities, and importantly an opportunity to exchange professional practice. The participants have included paediatricians, general practitioners and allied health professionals including nurses, dietitians, occupational therapists, pharmacists, physiotherapists and medical students.

The organizing committee has invited a faculty of overseas and local leading speakers in this field to present their cutting-edge view of the current knowledge and practice. They will deliver state-of-the-art lectures in allergy, critical care, home respiratory support, nutrition, pulmonology and sleep disordered breathing. A variety of communication formats and learning modes will be featured including courses & workshops, oral presentations as well as exhibition of medical products and equipment. The Meeting will provide healthcare professionals an invaluable opportunity to learn the latest advances in paediatric respirology and allergy.

We look forward to warmly welcoming every delegate. The annual meeting will certainly be a valuable and fruitful experience.

Yours sincerely,
